

Student

Mopri offers a **simple, easy** and **cashless** way for students or parents to load funds into their Student print and copy account.

The Mopri solution is linked to the students account, the funds are loaded via a webportal, where a student or a parent can select a payment method that best suits them to transfer the funds into the Print account.

Mopri integrates with most Print Management Software solutions, so the student can use their existing PIN code or Student Card to release prints or make copies. When a document is printed or copied, the value is deducted from the students print account.

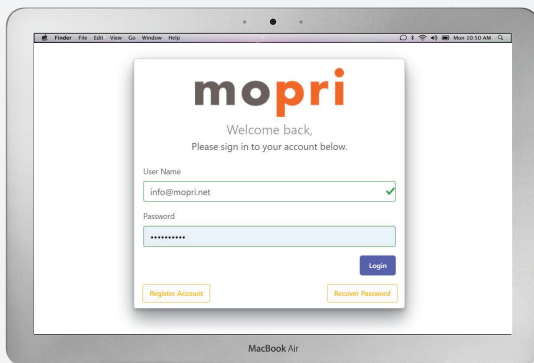

Mopri also offers:

- A view of your current balance
- How many pages you have printed
- Detailed breakdown of documents printed
- Auto-generate PIN codes for Print Release and Copying

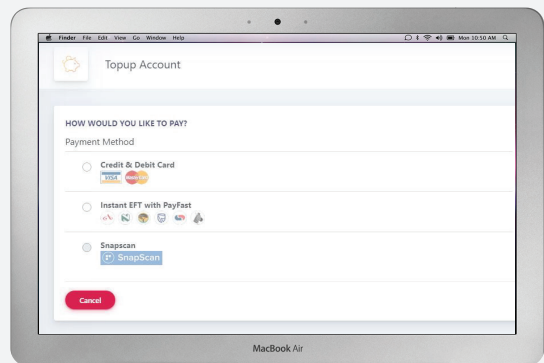

Campus

Mopri takes away the administration tasks of having to load printing credit for students. We also make sure that you have a full reconciliation of prints done versus the amount of money collected, this **simplifies** administration tasks.

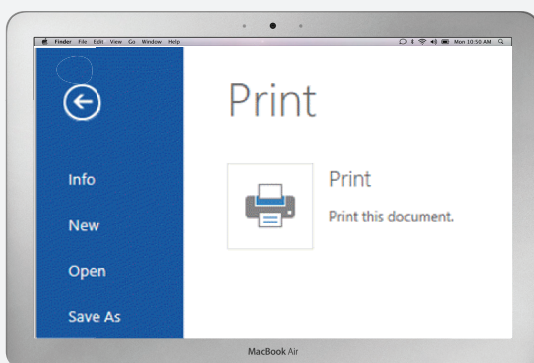

How it works

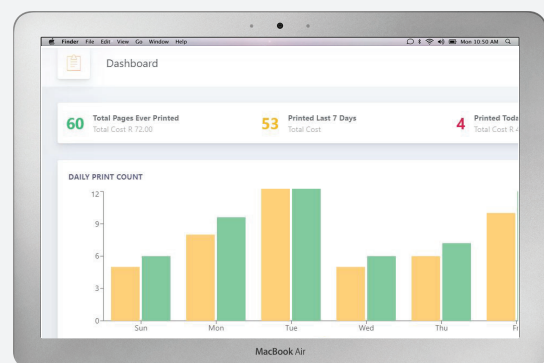

Step 01: **LOGIN**

Step 02: **LOAD FUNDS**

Step 03: **PRINT**

Step 04: **VIEW DASHBOARD**
